

Small Business AI Growth Worksheet

Diagnose your biggest growth leaks and map the first three AI automations that will actually move revenue.

What's inside

- Diagnose the leaks
- Prioritize automations
- Rollout plan
- ROI worksheet

Chapter 1: Diagnose the leaks

This chapter walks through **diagnose the leaks** — the frameworks, scripts, and step-by-step actions our top-performing customers use to make this work in the real world.

Key actions:

- Audit your current workflow and identify the biggest single leak.
- Install the automation blueprint from the appendix.
- Measure lift weekly for the first 90 days and iterate.

Pro tip: pair this chapter with the matching module inside the GSS Growth Tool platform to automate the entire workflow end-to-end. Book a free walkthrough at calendly.com/kgilbert-11/free-gssai-demo-review.

Chapter 2: Prioritize automations

This chapter walks through **prioritize automations** — the frameworks, scripts, and step-by-step actions our top-performing customers use to make this work in the real world.

Key actions:

- Audit your current workflow and identify the biggest single leak.
- Install the automation blueprint from the appendix.
- Measure lift weekly for the first 90 days and iterate.

Pro tip: pair this chapter with the matching module inside the GSS Growth Tool platform to automate the entire workflow end-to-end. Book a free walkthrough at calendly.com/kgilbert-11/free-gssai-demo-review.

Chapter 3: Rollout plan

This chapter walks through **rollout plan** — the frameworks, scripts, and step-by-step actions our top-performing customers use to make this work in the real world.

Key actions:

- Audit your current workflow and identify the biggest single leak.
- Install the automation blueprint from the appendix.
- Measure lift weekly for the first 90 days and iterate.

Pro tip: pair this chapter with the matching module inside the GSS Growth Tool platform to automate the entire workflow end-to-end. Book a free walkthrough at calendly.com/kgilbert-11/free-gssai-demo-review.

Chapter 4: ROI worksheet

This chapter walks through **roi worksheet** — the frameworks, scripts, and step-by-step actions our top-performing customers use to make this work in the real world.

Key actions:

- Audit your current workflow and identify the biggest single leak.
- Install the automation blueprint from the appendix.
- Measure lift weekly for the first 90 days and iterate.

Pro tip: pair this chapter with the matching module inside the GSS Growth Tool platform to automate the entire workflow end-to-end. Book a free walkthrough at calendly.com/kgilbert-11/free-gssai-demo-review.
